**URBAN MOMMY  
INC**

*When you invest in mothers, you elevate a family*

## URBAN MOMMY SIGNATURE METHOD

Our programs and events are unique because they are mother-driven and mother-focused

From the time that we began five years ago in Portland, Oregon to our launch of the Arizona location, we have worked to develop community outreach events/programs to engage, motivate and support mothers and their children in an ever changing environment. As we continue to advocate for mothers on a global scale, we want to ensure that we continue our support on a local level.

We believe that with the right networks in place for mothers, families can realize their dreams and reach their full potential. Our three focus areas will assist in eradicating poverty and set the course for mothers of color to achieve success.

### ABOUT US

#### Our Mission

Urban Mommy Inc., exists with the mission to eradicate systematic poverty by strengthening mothers of color through personal and professional development, access to early childhood literacy, healthcare and other resources.

#### Our Vision

We are dedicated to empowering mothers to achieve success and reach their goals by focusing on family outcomes in early childhood literacy, healthy family lifestyles and economic independence.
